**Grading and Requirements:**

The Study Away Preparation course is a required part of the Leave to Study Away process, intended to help students prepare for a study term abroad or away from Simon's Rock. A second course, the Study Away Reflection course (LR 203m1), is intended to help students maintain contact with the Simon's Rock community while away and transition successfully back to campus on their return. The Reflection course's requirements include 1) the Study Abroad blog, 2) Return Survey, and 3) Returning Student Presentation.

The course provides practical information and engagement with the chosen destination before the student's program begins, but it also offers a chance for students to consider "culture" as a larger concept, and allows recently returned study away students to share experiences with those who are new to study away or abroad. It is expected that some students may have already traveled abroad, or in the case of international students, may have already completed a similar course in their home country. Every effort will be made to provide a meaningful and useful experience in this course for these students, and the course will be modified based on the participants.

A grade of "Pass" will be awarded for the Preparation course for students who complete the following requirements:

- Attend all three sessions of the Preparation course
- Submit the Workbook and the Research Assignment
- Give a presentation on selected country or program at the end of the course

Students who fail to complete this course will not be granted permission to study abroad as part of a Simon's Rock degree program.
