KANSAS TO PRODUCE BIG CROP

More Than 4000 Farm Tractors Work Day and Night to Plow Huge Area

HARVEST PLANNED

The women suffrage state of Kansas is preparing to work with the men in preparing the corn to be plowed. Provision has been made and new work is being started for every farm in the state. The women have taken their place in the work of production, and are ready to work with the men.

GARAGE PULL-OUT

The garage pull-out will be used in every farm. Provision has been made for every farm in the state. The women have taken their place in the work of production, and are ready to work with the men.

She is a brilliant, forceful speaker of the French army. During those years, she was deeply interested in the women's movement in France, which she was one of the leaders of. She was a member of the French delegation to the Paris Peace Conference in 1919, and she was a member of the French delegation to the League of Nations in 1920.

WOMEN INTRODUCE A NEW MEASURE

Pennsylvania Bills Applied to Voting for Presi
dents

HARRISBURG.—In a convention of suffragists, a new bill was introduced to the Pennsylvania House of Representatives. The bill provides for the election of women to the office of president of the United States. The bill was introduced by Mrs. Sarah J. Cummins of the Women's Suffrage Association of Pennsylvania.

WOMEN'S VOTES

OUTNUMBER MEN'S

Mrs. J. B. Smith, the suffragist, gave the following account of the women's vote in the last election: "In the last election, the women of the state cast 100,000 votes, while the men cast 300,000 votes. The reason for this is that the women are more interested in politics than the men. The women are more interested in the future of the country than the men are."
CARD PARTY

A SUCCESS

Over $125 Realized from Affair at National Suffrage Headquarters

The most successful recent out plant of the Woman's Journal was the annual suffrage card party held at the auditorium of the National Suffrage Headquarters last Saturday night. A more perfectly planned and executed festival of the kind has never been presented to the women of the New Jersey suffragettes. The card players, auction, refreshments, and entertainment were all of the most approved kind, and the ruling comprehensive committee was Mrs. H. W. M. Martin, Mrs. H. F. Martin, Mrs. H. F. Martin, and Miss Alice Pond, of the Municipal Reform Club, Miss Ida Martin, of the Women's Press Club, and Miss Alice Pond, of the Women's Press Club.

SUFFRAGE IN IOWA
Mrs. Livingstone Making Many Conversations To Cause Earnest Work

Various activities are taking an important part in the political work of the suffragists. One of the most significant has been the work of organizing the “Save the Eye” campaign in Iowa.

Three thousand dollars of this fund were contributed by Mrs. Livingstone, President of the Iowa Equal Suffrage Association, for the purpose of securing the passing of the suffrage amendment in Iowa. The money was raised through a series of public meetings and charitable gatherings throughout the State.

In addition to the monetary contributions, Mrs. Livingstone has been actively engaged in the organization of local suffrage groups and has worked tirelessly to promote the cause.

MISSISSIPPI WOMEN CONVENE
The recent 119th annual convention of the Mississippi Women’s Suffrage Association was held in Jackson, Miss., on April 10th. The convention was attended by representatives from all parts of the State.

Mrs. J. B. White, president of the association, opened the meeting with a stirring address, and the convention proceeded to consider various resolutions and reports. Among the topics discussed were the need for increased educational opportunities for women, the importance of women’s participation in public affairs, and the struggle for equal rights in all spheres of life.

The convention adjourned on April 11th, having accomplished much towards the advancement of the cause of woman suffrage in Mississippi.

MISSOURI SUFFRAGISTS TO HEAR OF WAR WORK
A meeting has been arranged for the purpose of hearing about the war work being done by Missourians in the field of the American revolution. The meeting will be held at the Missouri State Capitol, in Jefferson City, on May 1st.

The speakers will include prominent women from all parts of the State, who will relate their experiences and share their knowledge of the work being done by women in supporting the war effort.

The meeting is open to all interested women and men, and it is hoped that as many as possible will attend to hear about this important work.

“SUFFRAGE TO MEANS OF HEALTH AND HAPPINESS”

The suffrage movement is a means to improve the health and happiness of women. It is a method of obtaining the same rights and privileges as men, and thus making the world a better place for all.

Suffrage is not just about votes, it is about freedom. It is about women having a voice in the decisions that affect their lives. It is about women being able to contribute their full potential to society.

Now is the time to stand up and fight for women’s rights. Let us work together to make the world a better place for all.
SUFFRAGE IN SHORT
Our most interesting and important movement is that of women for Woman Suffrage. The National Woman Suffrage Association was founded in 1869, and has been the leading force in the movement ever since. The organization has grown steadily, and today it numbers millions of members throughout the United States. The National Woman Suffrage Association aims to secure for women the right to vote and to hold office. It has been recognized by the United States Congress as a nonprofit educational organization, and its work is supported by contributions from individuals and groups throughout the country.

THE VALLEY CONFERENCE
We are meeting today in the National Woman Suffrage Association, New York City. The conference is being held in conjunction with the National Woman Suffrage Association, and is attended by women from all parts of the country. The purpose of the conference is to discuss the current state of the suffrage movement and to identify strategies for increasing support for the cause. The conference will also provide a forum for sharing ideas and experiences with other suffrage activists.

NEW ENGLAND CONFERENCE
The New England Conference of the National Woman Suffrage Association is also being held in New York City. This conference is attended by women from the northeastern states, and is dedicated to the task of organizing new chapters and strengthening existing ones. The New England Conference is an important part of the National Woman Suffrage Association's efforts to expand the suffrage movement throughout the United States.

THE WOMAN'S JOURNAL, MAY 19, 1917

HORACE BROWN'S BIG GAIN
HORACE BROWN'S BILL RESPECTING THE EQUAL SUFFRAGE OF WOMEN
The House of Representatives has passed a bill sponsored by Horace Brown, a representative from New York. The bill would grant women the right to vote in all states and territories of the United States. The bill has received strong support from members of both parties, and is expected to pass the Senate as well.

THE BETTER HALF OF PREPAREDNESS
The war is not only about fighting, it is also about preparing. We must be ready to defend our country, and to support our allies. We must be prepared to provide the resources and support that will be needed to win the war. The war is not only about men, it is about women as well. Women are playing an important role in the war effort, and their contributions are vital to our success.

Half-Monthly Notes

THE WOMAN'S JOURNAL, MAY 19, 1917

For women, the war is no less real than for men. Women are employed in factories, on ships, and in other industries, and they are providing critical support to the war effort. Women are also volunteering for service in the Red Cross and other organizations, and they are doing their part to help win the war.

THE MANNEQUIN

The mannequin is a symbol of the way in which women are being remembered in the war effort. The mannequin represents the contributions that women are making to the war, and it serves as a reminder of the importance of women's role in the war.

May 19, 1917

THE WINTER

The winter is a time of preparation. The war is not over yet, and we must be ready to continue fighting when the spring arrives. The winter is a time for rest and recovery, but it is also a time for planning and strategizing. We must be prepared for what may come next.

THE SUMMER

The summer is a time of celebration. The war is nearing an end, and we are beginning to see the light at the end of the tunnel. The summer is a time for rejoicing, and for remembering the sacrifices that have been made.

THE AUTUMN

The autumn is a time of transition. The war is coming to an end, and we are moving towards a new era. The autumn is a time for reflection, and for planning for the future.

To the Editor:

Miss Ryan of Greenwich,

need not become objects of charity. The fall of 1918 will bring fewer of them, and there will be time given to learn about the care of the sick.

It is in the interest of the poorly paid to be able to help themselves. If they are not yet backward enough to know the better type ofvote, there is no reason why they should not be taught.

Citizen John has shown in offering his land to the state for the support of the insane. His indomitable cheerfulness and his sense of proportion, his charm and his ability to do good, make him a unique example for others to follow.

It is not done for the good of the community that self-sacrifice be demanded of others while we demand it of ourselves.

The state control of business is the bossing of others. Mrs. Miller's method is the bossing of others; and there is no question about the bossing of others.

DETROIT, June 22—The entire American woman movement is to welcome the children of the West, from the Women's California Federation of Clerks, who have undertaken the task of teaching them the principles on which women's suffrage is based.

The influence of the war has been such that the women of Iowa, and women everywhere, have been fighting for the right of women to vote.

At last we have succeeded in registering the votes of the women of Iowa, and we are now working for the registration of the votes of the women of the other states.

The time-honored argument that women cannot be trusted to manage their own affairs is now being used to justify the given means of control.

However far astray we women go, we will continue to work for the registration of the votes of the women of the other states.

There is an enormous amount of work to be done in this connection, and we will continue to work for the registration of the votes of the women of the other states.

The time-honored argument that women cannot be trusted to manage their own affairs is now being used to justify the given means of control.

HOUSING EXPERIMENT IN WORCESTER IS SUCCESS

Indian Hill Settlement Proves That Employees Are Eager To Own Their Homes—Outline of Purchasing Terms and Description of the Project

Four miles northeast of the City Hall in Worcester, Massachusetts, as the crow flies, stands Indian Hill. There a large manufacturing concern called the Norton Company has established itself, and around this factory there is a highly industrialized district. The Indian Hill settlement is one of the most attractive communities in New England, and a few years after its establishment, it has become a model for the rest of the nation to follow.

The Indian Hill Company manufactures machinery valued at about $75,000,000, in both the United States and foreign countries. The Norton Company, which is engaged in the manufacture of grinding, polishing, and allied machinery, has a large number of employees. This subsidiary company has adopted a progressive policy in providing comfortable homes for its workers, and as a result, there is a steady stream of people moving into the settlement. The company has already built a number of houses, and more are under construction.

The streets are fully as wide as those in the residential areas and are laid out in an attractive fashion. The houses are built to meet the needs of the workers, and their design is such that they are comfortable and functional. The company even goes so far as to provide a small garden area for each householder.

For the benefit of those who purchase a home here, the company offers a number of advantages. For example, the houses are sold at prices well below market value, and the company even provides a down payment of $10,000 to those who are not able to afford it.

The company gives each purchaser a monthly payment schedule. The following are typical of the terms:

- Down payment: $10,000
- Monthly payment: $150
- Interest: 5% per annum
- Term: 15 years

The company guarantees a monthly payment of $150 for the term of the mortgage, regardless of the interest rate.

We believe that the Indian Hill Settlement is a model for other companies to follow in providing comfortable homes for their employees. It is a testimony to the fact that a business can do well by doing good.
