Second and Subsequent Citations to an Item
The full information for a book, journal article, newspaper, etc. is provided only once
in the footnotes. For all subsequent citations, use a shortened form of the citation.
Note the starting page and pinpoint reference in the initial footnote. Use Ibid to refer
to a source in the immediately preceding footnote. Use ‘Above n’ to refer to sources
cited other than in the immediately preceding footnote.

Institute Journal 39, 41-2.
⁴ Walzer, above n 2.
Legislation should be cited in full in all subsequent references. Case names may be
abbreviated as indicated on the previous page.
For other types of materials, apply these general principles to the material being cited.

B. Bibliographies or Lists of
References Cited
List sources by the name of the first author in alphabetical order. In the case of works
with no identifiable author, such as some reports, web sites and videotapes, list
references by title. The first personal author in a source is always listed surname first
(which is not the case in footnotes). Full stops should not follow citations.
Do not give pinpoint references for books and other monographs but do give the
starting page number for journal articles, chapters within edited books and cases.
Organise the references in your Bibliography or List of References under headings
for the main categories of material. For example:

Articles/Books/Reports
Institute Journal 39

Case Law
James Hardie & Co Pty Ltd v Hall (1998) 43 NSWLR 554
Lane v Morrison [2009] HCA 29 (26 August 2009)

C. Structure and Layout of Your Work (in
general conformity with the AGLC)
• Type or print your work on white A4 paper in 12 point Times New Roman and in
the main body of the text, single space the lines.
• Indent quotes of more than three lines in a block and do not use quotation marks.
Footnotes and indented block quotes should be in a 10 point font and should be
single spaced. Quotes should not be italicised.
• Leave a line between paragraphs and do not indent the first word of a new
paragraph.
• Type on one side of the paper only and leave a margin at least 3cm wide at the
left-hand side of the paper.
• Number your pages and staple them at the top left hand corner. Include a
bibliography/list of references unless instructed otherwise.
