Chrome (current version)

Firefox (current version)

### **Windows 7**

Internet Explorer 9

Firefox (current version)

Chrome (current version)

### **Windows 8**

Internet Explorer 10

Internet Explorer 11

Firefox (current version)

Chrome (current version)

### **Mac OS X**

Safari (current version)

Firefox (current version)

Chrome (current version)

## Other Requirements

JavaScript and cookies enabled.

Viewing Computer Skills courses requires Adobe Flash 8 or higher. [Download the free Adobe Flash Player.](#)

Viewing eBooks requires Adobe Reader 8 or higher. [Download the free Adobe Reader.](#)

Firefox requires flash to play audio within tests and tutorials.

## Responsive Web Design

Responsive web design is an approach that provides optimal reading and navigation across a wide range of devices, from smartphones to tablets and desktop computers. Practice tests and tutorial assessments are now using responsive web design.

The new, responsive LearningExpress Library does not support Internet Explorer 9. Please update your browser to a later version of Internet Explorer at <http://windows.microsoft.com/en-us/internet-explorer/download-ie>.

# Mobile System Requirements

## **Android**

Chrome (current version)

Native Android browser

## **iOS (iPhone/iPad)**

Safari (current version)

Chrome (current version)

## **Windows Phone 8.1**

Chrome (current version)

# Viewing Video on Mobile Devices

## **Android**

If video does not play natively, download a video player for your device. We recommend the free MX Player, which you can download from the Android Market (Google Play):

<https://play.google.com/store/apps/details?id=com.mxtech.videoplayer.ad&hl=en>.

## **iOS (iPhone/iPad)**

Video plays natively
